ENTERTAINMENT SOLUTIONS

Dinner and Reception

With so many things going into wedding planning, we want to make this portion of your wedding as easy as possible. New Ideas, Old Ideas, whatever the theme and overall feel, whatever we can do to make the night all yours!

- Any Music
- Great Sound
- Lights
- Wireless Mic

Once an agreement is signed, we send out a great outline for the dinner and reception which is fully customizable. This is a great starting point to help things along the planning process.

Two months prior to the reception we can have a conversation in person if it works, or over the phone about what your wishes are for the big day. Together we will go through each detail and break down all the steps to making that day/night as perfect as we can make it. I will take your music requests, get your choices for the special dances, and get the overall feel of how you want your dance to be.

At any time please feel free to call or email me with anything!

Thanks,

Patrick Remmick
